Smart Bucket

Smart Bucket is an environmental friendly, easily adaptable and easy to use indoor technology for handling of the kitchen waste into value added compost. This kit not only manages the kitchen waste but also produces compost that can be used in garden, rooftop farming etc.

A kit of Smart Bucket is designed to manage the kitchen waste of the family of 4-5 members for about 25-28 days. The number of the Smart Bucket can be added as per the size of the family members. The whole process from waste to ready to use compost takes about 60-90 days dependent upon the proper handling of the kit.

Leaf Composter

Leaf composters are a low maintenance way to compost your garden organic waste. Ideal for outdoor garden spaces and lawns, all you have to do is place your leaves and garden litter in the leaf composter with some water and you will have ready to use compost in no time.

LEF-487	Leaf Composter	487L	45 X 29	Rs. 9,000	Decomposer-2

Organic Fertilizers

25 Kg Bag

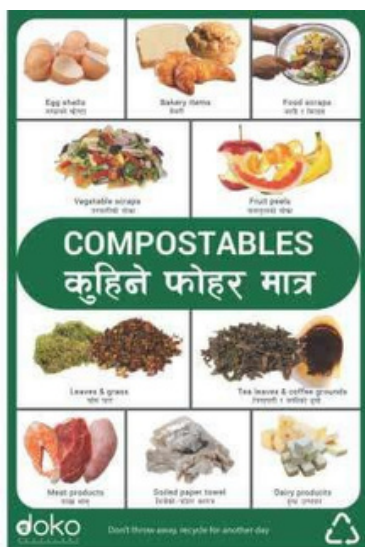

2 kg Bag

In contrast to chemical fertilizers, compost “feeds” the soil through the fine organic matter and available nutrients that compose it. It allows keeping the fertility of soils in the long term, avoiding that all nutrients are washed out with the first rains and end in the groundwater and the rivers. Compost also offers a better capacity of water infiltration and thus augments the water storage capacity of the soil and the refill of the groundwater stock, helping the struggle against desertification. By increasing airing and porosity, it also facilitates digging which improves growth of the plants. Finally, compost permits to consolidate the pH of soils and avoid acidification. All these elements help to guarantee the fertility of soil and therefore the output of the cultures on the long term. Compost introduce a positive cycle improving soil quality that so requires less fertilizer and water, as it can storage them.

Code	Description	Volume	Quantity	Product Price
DB-BC01	Biocomp Organic Fertilizer 2Kg	2 Kg	1	Rs. 120
DB-BC02	Biocomp Organic Fertilizer 25Kg	25 Kg	1	Rs. 1,200
